

Safe and efficient transportation of bulk wine

Specially designed to protect the quality of your wine.

Hillebrand Gori is the only provider controlling the full process, from developing and manufacturing our flexitanks, to transport solutions including customs and insurance, and recycling in our own facilities.

Contact us

Shipping with a flexitank

One way: no risk of cross-contamination

100% recyclable

Better payload than finished goods

Cost efficiency

More sustainable than ISO tanks: -10% life cycle carbon emissions*

Designed with a patented technology barrier to:

- Protect from oxidation
- Defend against taint compounds
- Prevent water vapor transmission

Available in different sizes, multilayer or single layer

Hillebrand Gori's integrated solution
