

Turn visits into long-term connections

myBottlesDelivered is a feature within the eShipping online platform that helps producers offer visitors an easy way to choose bottles and arrange delivery, whether during a visit or once they return home.

myBottlesDelivered – benefits for producers

- Support visitor sales beyond the tasting room
- Encourage re-orders once visitors return home
- Present bottles from your portfolio in a digital space
- Provide transparency on delivery options, duties and taxes
- Manage visitor orders in one connected place
- Stay connected with consumers after their visit

How it works

Visitors scan a QR code on-site or access a web link from home

They browse bottles from the producer's portfolio

Delivery options, duties and taxes are displayed clearly

Bottles are delivered to the consumer's address

myBottlesDelivered is part of the eShipping solution, supporting producers with an easy way to connect tasting experiences with shipment delivery.
