IMPORTANT REMARKS
Door delivery in all Continental and Eastern Europe.

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the Hillebrand loading port platform. This is determined by the shipping line's closing date and export customs permit processes.
"Arrival" = "eta", i.e. expected time of arrival. This is the date when the vessel is expected to arrive at destination port.

CROSS BORDER LCL EXPORT SERVICES
It's more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinean groupage wines are packed at the Hillebrand Gori Chile groupage platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better groupage service. Please contact Hillebrand Gori Argentina or Hillebrand Gori Chile for updates on the "Cross-Andes" services.

Hillebrand Gori's Green Groupage Service is a truly environmental alternative for the transportation of wines from South Europe to North Europe/UK/Sandinavia by short-sea or by rail-multimodal. This service allows a reduction of 1 kg CO_2e emission per case compared to a road transport.

Besides the Green groupage service, Hillebrand Gori will continue to manage weekly trucks from South Europe to North Europe/UK.

Please contact your local Hillebrand Gori office for more information on any of our Intra European services.
