From Montevideo, Uruguay

Please contact Hillebrand Gori UK for details of next sailing

Read more about how Hillebrand Gori Insulation liner protects your shipment

IMPORTANT REMARKS

"Closing" = "closing date" or "cut off date". This is the latest day for receipt at the Hillebrand Gori loading port platform. This is determined by the shipping line's closing date and export customs permit processes.

"Arrival" = "eta", i.e. expected time of arrival. This is the date when the vessel is expected to arrive at destination port.

CROSS BORDER LCL EXPORT SERVICES

It's more effective to ship wine that is produced in the region of Mendoza, Argentina through ports in Chile, such as San Antonio or Valparaiso. This provides a shorter inland transportation time to the consolidation port of loading as compared to the Buenos Aires port. Argentinean groupage wines are packed at the Hillebrand Gori Chile groupage platform in San Antonio, Chile. A number of trades are served from the ports in Chile with faster vessel transit times, which contributes to an even better groupage service. Please contact Hillebrand Gori Argentina or Hillebrand Gori Chile for updates on the "Cross-Andes" services.
